

2nd mile project

Evangelism and Church Development Project #34152 Supplemental Second Mile Project

“Medical Services for Guatemala Mission”

The Need

The Missions Ministry Team administers a medical clinic in Guatemala, www.ccbom.org/clinic. The clinic is built on the property of Casa Shalom Orphanage. The clinic's purpose is to provide medical services to the children of the orphanage as well as medical services to those in the area close to the clinic.

The mayor of San Lucas, Guatemala, where the clinic is located, has expressed interest in helping the Cumberland Presbyterian Church. The mayor's office has provided free medicines and hopes to eventually place medical workers in the clinic. However, these arrangements are taking more time than we anticipated, and we have decided to move ahead and place a full

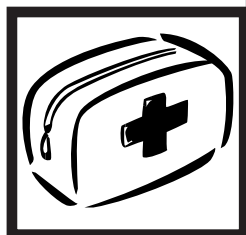

time Guatemalan nurse in the clinic.

This second mile request is for funds to secure a nurse for the clinic. The nurse will serve the orphans for free and serve others in the area for a reasonable price.

As well, we are also looking into a weekly or bi-weekly visit to the clinic by a Guatemalan doctor. The Missions Ministry Team maintains a CP missionary at the clinic, Anay Ortega, whose job is to administer the facility and activities that take place in the facility.

Funds received for this second mile project will be used to pay the salary for one year of a Guatemalan nurse for our medical clinic.

Financial Data

Total Amount Needed for the Project	\$3,500.00
Amount Contributed to Date	\$ 650.00
Amount Needed from Second Mile	\$2,850.00

Duration:

April 2010 – April 2011

Contributions:

Send to the Denominational Missions Ministry Team. Designate on the check "Medical Services for Guatemala Mission," Project #34152
