

A HALF-CENTURY OF SUPPORT FOR MISSION

THROUGH INVESTING up to 40% of the assets of the Growth/Income Fund in the witness of the Church, the Endowment Program has extended the Church's message of good news concerning the Christ both in the United States and overseas. A survey of old files in the Historical Foundation and in the vault of the Board of Stewardship reveals the important role played by this aspect of the investment policy. Over the past fifty plus years (1944 to 2000), the Endowment Program has made 783 loans to congregations, presbyteries, and synods. Through these 783 loans, the program has provided \$27,270,128 in financing for expansion of facilities and extension of witness.

A look at the different periods during which loans have been made provides a picture of growing endowments (and of post World War II inflation!).

PERIOD	LOANS	TOTAL LOANED	AVERAGE
1944-49	35	\$ 145,755	\$ 4,164
1950-59	171	1,360,441	7,955
1960-69	208	3,056,891	14,697
1970-79	166	3,609,084	21,741
1980-89	101	4,349,120	43,061
1990-00	102	14,440,837	141,577

Down through the years, donors to endowments found satisfaction in the knowledge that the prudent investment of their gifts strengthens not only the work of the particular churches, institutions, and causes which they have designated to receive the income but also the broader witness of the Church. The listing which follows supplies a regional and historical portrait of this significant support for the mission of the Church.
